

MEHEDI HASAN

Web Developer

 Madhabdi |  mehediextreme@gmail.com |  LinkedIn |  +880 1757-705728

SUMMARY

Highly motivated Web Developer skilled in building scalable web applications using React and integrating AI solutions with Spring AI. Strong foundation in REST APIs, Agile methodologies, and debugging. Fast learner with proven team collaboration and problem-solving skills.

SKILLS

- ✓ React, JavaScript, HTML5, CSS3, Tailwind CSS
- ✓ Java, Spring Boot, Python
- ✓ Git & GitHub, RESTful APIs, Agile (Scrum)
- ✓ Visual Design, Design Thinking
- ✓ Debugging, Team Collaboration, Problem Solving

PROJECTS

- Amazon Clone

Built an Amazon-like frontend interface using React and Tailwind CSS with cart, product view, and responsive layout.

- Random Password Generator

Created a tool using vanilla JS to generate strong, customizable passwords dynamically.

EXPERIENCE

- Project Engineer (Academic Role)

- Developed full-stack web applications using React, Java, and Spring Boot.
- Collaborated in 3+ team projects, mainly leading frontend development.
- Participated in Agile sprints for efficient and consistent delivery.
- Contributed in code reviews and debugging for team improvement.

EDUCATION

B.Sc. in Computer Science & Engineering

Green University Of Bangladesh, Madhabdi, Narsingdi

Expected Graduation: Final Year

ADDITIONAL INFORMATION

-  Actively contributing to GitHub
-  Participated in several coding hackathons & tech meetups
-  Strong communication skills and passion for AI-integrated web systems
